

Scope of works

Beatties were awarded the Electrical and Mechanical installation package, for a multi residential building located in Bournemouth.

The project consisted of 24 one and two bed flats, a communal staircase, lift, 16-bay carpark, driveway and communal garden.

The works included the following:

- LV distribution to each of the flats
- Small power within each flat and landlord area
- Internet distribution
- A combination of conventional and smart lighting systems throughout
- A full L2 fire alarm system
- Access control system allowing residence to open three different entrances
- Mechanical power supplies from landlord distribution
- Mechanical ventilation system
- Plant room installation

St Stephen Road, Mechanical and Electrical Installation
