

# Scope of works

Beatties have relished playing our part on this monster build where attention to detail was key.

The property comprises of 5 bedrooms, Cinema room, double height dining & kitchen space, pool & spa complex, car emporium, garage and a cottage annex.

# Overview

Beatties have been responsible for the full M&E and AV installation. This amounts to small power, Control 4 lighting, fire alarm, UFH controls, chilled water/ DX fan coil units, MVHR ventilation, ductwork and domestic water/ drainage services.

# Private Residence

M&E Contractor

---

LOCATION: South Coast

The property is incredibly high end and Beatties worked hard to plan our install from design through to first fix, second fix and commissioning to provide a product that delights everyone that sees it.
