

# Scope of works

Beatties won a competitive tender against three other companies to secure this project in Poole.

The works focused around refurbishing a ground floor commercial unit in order to welcome a new tenant. We completed building works to a residential unit above as well.

# Overview

Works included the following;

- Testing of all life safety systems and remedial works.
- Decorations throughout the commercial unit.
- New flooring to the rear of the commercial unit.
- Replacement lighting to the shop floor.
- The install of a new felt roof.
- Sash window remedial works and resin repairs to shop front.

# Commercial and Residential Refurb

Main Contractor

---

LOCATION: Poole

Beatties assisted the client by providing a shopping list of works enabling them to match their budget to what was most important to them.

Our flexible and friendly approach endeared us to both the client, the incoming tenant and the residents.
